XML security mailing list

1. XML security mailing list

There exists a mailing list which you can subscribe to ask questions:

The ezmlm mailing list controller accepts commands by sending emails to it, generally like the following:

- security-dev-subscribe to subscribe your current email address to the list.
- security-dev-unsubscribe to *un*subscribe your *current* email address from the list.
- security-dev-help to get Help on mailing list commands.

2. Mail Archives

An archive of this list is kept under http://news.gmane.org/thread.php?group=gmane.text.xml.security.devel

Another archive is held by The EyeBrowse Mail Archive .
