A. Data Protection Sample Clause

"The End User notes that personal data about the End User is compiled from generally available sources and from communications received from the End User and other Universities as well as from off-site sources. The policy relating to the use and processing of such data is posted on the University website at [...]. Such data will be used, inter alia, to authenticate and authorize the access to and use of various resources within the University and on other sites ("Approved Uses"). The End User hereby consents to the collection, processing, use and release of such data to the extent reasonably necessary for the Approved Uses. Such consent includes, but is not limited to, the release of personal data to other institutions by employing cookies and electronically exchanging, caching and storing personal authorization attributes."

B. Limitation of Liability

"To the extent permitted by the applicable law, the End User hereby waives all and any claims for cost and damages, whether direct or indirect, incidental, or consequential (including, inter alia, loss of use and lost profits), both in contract and in tort, arising from the use or in any way related to the inter-organizational authentication and authorization services which allow the End User to access certain resources of other organizations. This waiver of claims shall be valid and effective in relation to all participants of the inter-organizational authentication and authorization services including SWITCH and its affiliates, officers, employees and agents."
