TRID WG Meeting, 26.5.2021

Follow-up discussions

Goals:

- Get your opinion
- Go more in depth
- **Set priorities**

1. Short presentation of prepared topics
2. Possibility to propose your own topics
3. Poll (importance and participation)
4. Selection of 1-3 “favorite” topics
5. Invitation for follow-up discussions will be sent to all participants and subscribers of mailing lists

1. Affiliation Chooser

How should it look like to support your use cases?

Choose an Identity to Proceed

You are about to access the service 'AAI Attribute Viewer' with one of your identities. Choose one to proceed.
When you return to the service it will recognize you with the identity you choose now.

SWITCH

Topic proposed by
Dominique Petitpierre, UNIGE

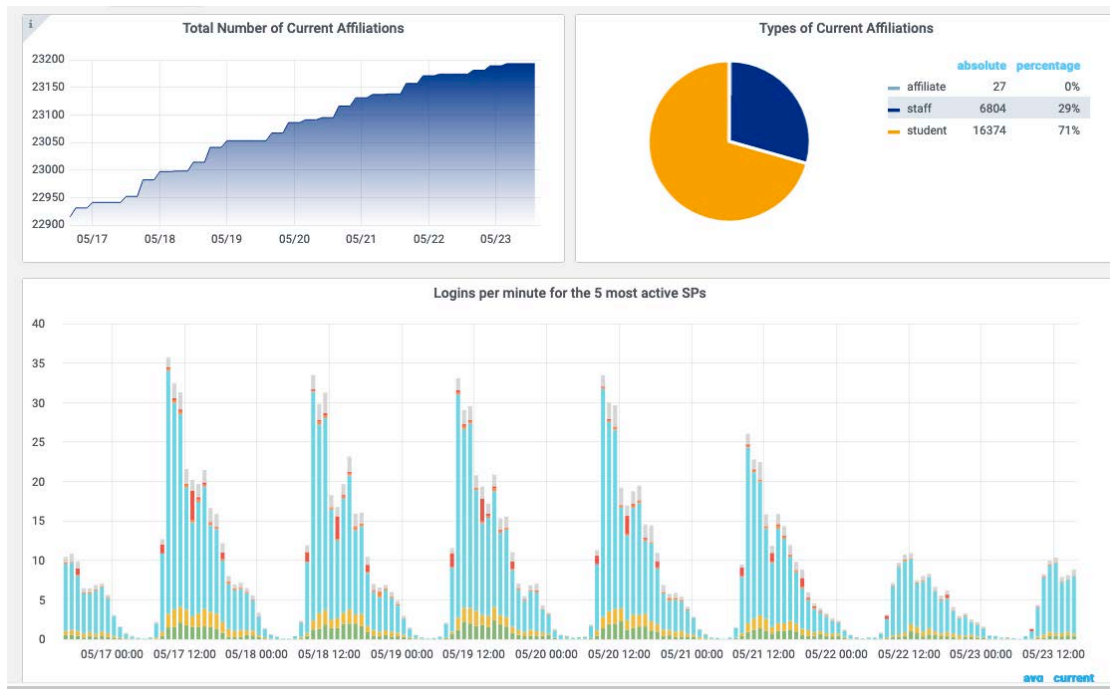

Mo. 14.6. 14:00 - 14:45

edu-ID Personal Identity

- Context: extend application to allow access to non affiliated people
- Use case: entry exam for the faculty of Translation and Interpretation; some candidates are already affiliated
- Unintended consequence: affiliated people can use two identities, linked identity or personal identity
- Issue: can cause duplicates, missing important attribute (e.g. matriculation number), user confusion.
- Proposal: option in resource registry to prevent the choice of the personal identity if a compatible linked identity is available

2. Organisation Administration Portal

What are the most important features to add?

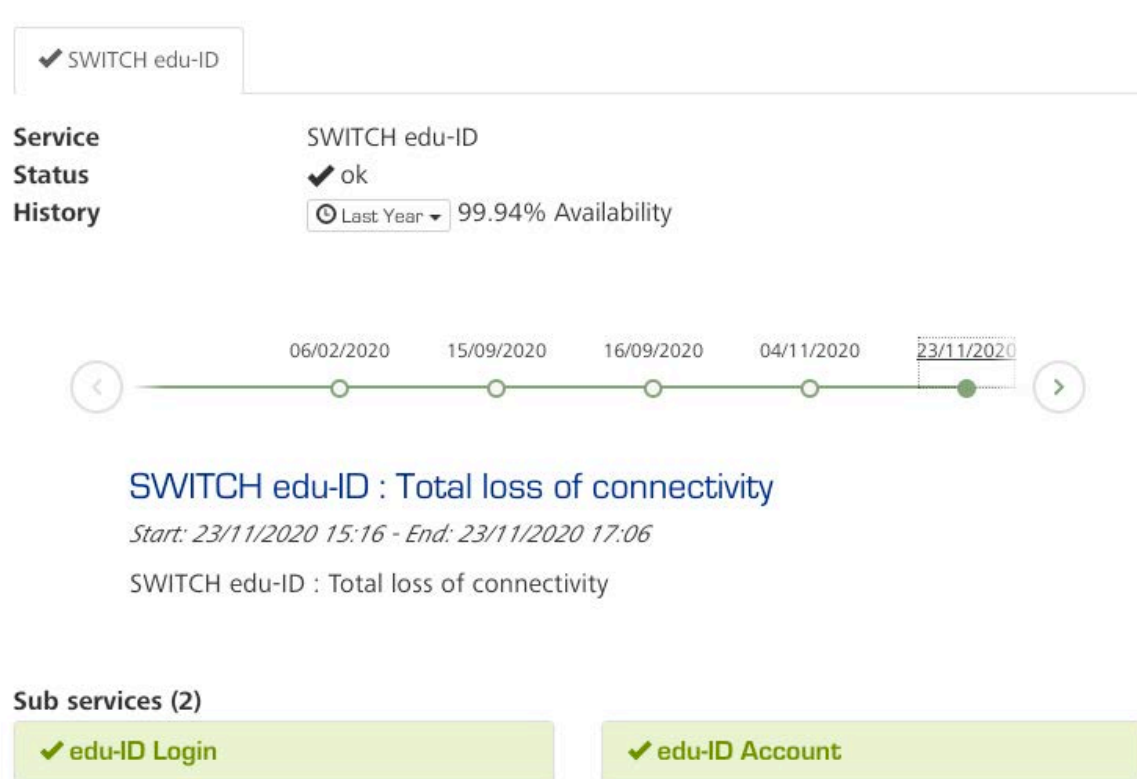

Topic proposed by
UNIBE/SWITCH

Mo. 14.6. 15:00 - 15:45

3. Incident handling

How could it be improved?

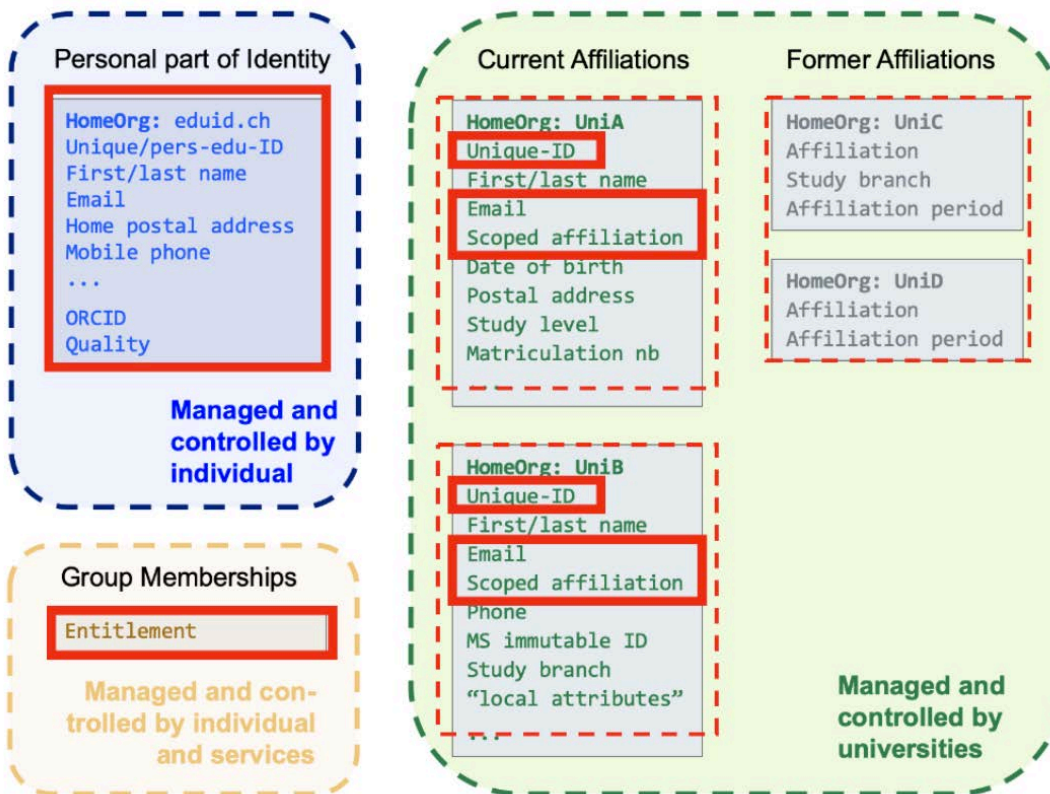

Topic proposed by
SWITCH

Th. 17.6. 9:30 - 10:15

4. Extended Attribute Model

Should it be redesigned?

Topic proposed by
SWITCH

Th. 17.6. 10:30 - 11:15

5. Linking and Syncing

Are new methods required?
