Discounts

We offer two kinds of discounts:

1. We discount the use of SWITCHengines in the “pay-as-you” model based on the aggregated volume in CHF used over the period of a calendar year. The discount is applied on the Q1 invoice of the following year.

2. We can offer you larger discounts based on larger volumes and the multi-year duration of the usage.

Please inquire here for a quote: engines-support@switch.ch.

Projects funded by the SNSF can fully allocate the cost of SWITCHengines to their project expenses. Same for Innosuisse projects (upon approval of required resources).

Invoicing

Invoices are sent out quarterly and will contain the invoice for the SWITCHengines usage of the previous quarter. Usage is counted in 15 minutes increments.
